Continued 67/1/4

#### **BALANCE SUBJECT TO INTEREST RATE**

Balance Subject to Interest Rate / Average Daily Balance - We figure the interest charge on your account by applying the periodic rate to the 'AVERAGE DAILY BALANCE' of your account (including current transactions) and multiplying by the number of days in the billing cycle. To get the 'AVERAGE DAILY BALANCE', we take the beginning balance of your account each day, add any new advances and subtract any payments or credits, also subtracting any unpaid finance charges. The automatic minimum payment amount is excluded when calculating the 'AVERAGE DAILY BALANCE' and 'INTEREST CHARGE'. If the account does not have sufficient funds to cover payment and another advance is made to cover minimum payment, this is also excluded from figuring the 'AVERAGE DAILY BALANCE' but is reflected in the beginning balance of the next statement cycle. This gives us the daily balance. Then, we add up all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the 'AVERAGE DAILY BALANCE'.

Written notification of any errors must be given to preserve your rights under the Truth in Lending Act. At any time the debtor may pay the aggregate balance or any portion of his/her indebtedness.
